

tmux Help

tmux keybinds

These keys should follow the tmux command prefix CTRL+a

this key	does this
A	rename window
v	vertical split
z	horizontal split
o	rotate windows
h	select pane left
j	select pane down
k	select pane up
l	select pane right
Enter	break panes
Space	list panes
CTRL+up	resize up
CTRL+down	resize down
CTRL+left	resize left
CTRL+right	resize right

keybinds without command prefix

this key	does this
CTRL+up	previous pane
CTRL+down	next pane
CTRL+left	previous pane
CTRL+right	next pane
